REPORT OF THE INTERMINISTERIAL COMMITTEE ON COMMODITY FUTURES TRADING

STATEMENT

I would like to place before the Legislature today, the Report of the Interministerial Committee on Commodity Futures Trading. This study was proposed by my predecessor, The Honourable John T. Clement, QC, acting upon the recommendations of the Ontario Securities Commission.

The purpose of the study was to examine the commodity futures market with a view to:

- (1) establishing the appropriate regulatory mechanisms to control and regulate trading in commodity futures in the Province of Ontario in order to protect the customers of commodity futures brokers; and
- (2) to determine the desirability of encouraging the establishment of an exchange for the trading in commodity futures contracts in Ontario.

With the increasing interest among investors in trading in commodity futures contracts, my Ministry was aware of the lack of regulation in Ontario and of the frauds which had been perpetrated in the United States, particularly in California, through commodity options trading.

Because of the implications of the trading and its potential effect on the price of commodities in the agricultural, mineral and forest-product fields, economic planning, the application of criminal law, as well as investor protection, representatives were nominated from five Ontario Government Ministries. These were: Ministry of the Attorney General, Agriculture and Food, Treasury, Economics and Intergovernmental Affairs, Natural Resources and Consumer and Commercial Relations.

The Committee, which represented a range of disciplines, was chaired by Harry S. Bray, QC, Vice-Chairman of the Ontario Securities Commission and included:

Dr. Thomas P. Mohide, Director of the Mineral Resources Branch and former President of The Winnipeg Commodity Exchange;

Martin J. Jaeger, Senior Economist with the Ministry of Agriculture;

David E. Redgrave, Executive Director of the Office of Economic Policy, Ministry of Treasury, Economics and Intergovernmental Affairs (TEIA);

Edward F. Then, Counsel from the Criminal Appeals and Special Prosecutions Branch of the Attorney General; and

Mrs. Dagmar A. Stafl, Senior Economist and Barry Tocher, Senior Program Analyst, from my Ministry.

The Committee, assisted by Keith E. Boast, as Study Director, and Robert M. Rickover, an Economist with TEIA, examined the problems flowing from commodity trading and the regulatory solutions devised in Canada, the United States, the United Kingdom and elsewhere.

They examined the kinds of commodity contracts offered for sale in Ontario, the qualifications of the persons presently trading as brokers and as advisors and have recommended legislation directed to a registration system concerned not only with the honesty, reputation and competence of the persons who would be permitted to act as commodity futures brokers, but also the kinds of contracts which would be permitted to be traded in Ontario under the proposed Act.

The Report does not find a present need for a commodity futures exchange in Ontario; however, it recommends that the proposed legislation include the regulatory framework within which such an exchange could be established.

The Report will be placed before the Justice Policy Field Committee for consideration. Copies have been furnished to all Members of this House.

Those who presented briefs to the Committee and other interested parties will be supplied with copies. To assist in reviewing the Report and its recommendations, submissions will be welcome.

While the Report is not a text book on commodity futures trading, I believe it provides a helpful review of the subject from a regulatory point of view.

A copy of the above Report may be obtained by application in writing to K. W. Cady, Esq., Deputy Director-Administration, Ontario Securities Commission, 7th Floor, 555 Yonge Street, Toronto, M4Y 1Y7.

DECISIONS, DIRECTIONS, ORDERS AND RULINGS

QUEBEC STURGEON RIVER MINES LIMITED

On application under S.59, the Commission extended its order of 23rd April, 1975, to 23rd July, 1975.

CONSUMERS GLASS COMPANY, LIMITED

On application under S.59, the Commission ruled that the sale of 288 common shares of Consumers Glass Company, Limited by John E. Dubie would be deemed not to be a distribution to the public and registration would not be required if sold through the facilities of and subject to the conditions established by the Commission with the Toronto Stock Exchange.

EXTENDICARE LTD.

On application under S.59, the Commission ruled that the sale of up to 30,000 common shares of Extendicare Ltd. by David J. Callard will be deemed not to be a distribution to the public and registration will not be required on condition that the sales are made through the facilities of and subject to the conditions established by the Commission with the Toronto Stock Exchange and that the sales are completed before the 28th day of July, 1975.

FLAMINGO OILS LIMITED

Following hearing and review under S.28, the Commission varied the cease trading order by the Director dated 13th March, 1975, to permit the company to apply to the Commission to have it rescinded or varied at such time as the company sees fit to do so.

SILVER SHIELDS MINES INC.

On application by Moss Lawson & Company Limited under S.144, the Commission varied their cease trading order dated 20th November, 1974, in respect to a trade of 1,000 shares that had been effected in relation to a short sale in order to facilitate the liquidation of ex-registrant Bouchard & Co. Ltd. who are no longer in business. The order was also varied to permit a further short trade of 500 shares that still remains outstanding to be satisfied. The Commission said they would take no action in respect to the 1,000 share trade as the company had reported it and it seemed to be an internal mistake that had allowed it to occur.

ONTARIO SECURITIES COMMISSION

W E E K L Y S U M M A R Y

WEEK ENDING 14TH MAY, 1975

THE WEEKLY SUMMARY THIS WEEK CONSISTS OF THREE PARTS:
IN ADDITION TO THE USUAL PARTS 'A' AND 'B' THERE IS A
SUPPLEMENT 'C' CONSISTING OF TWO REPLACEMENT PAGES IN
RESPECT TO NATIONAL POLICY NO. 15 FOR INSERTION IN
YOUR MANUALS.

N O T I C E

The Canadian Provincial Securities Administrators wish to
announce certain conclusions reached during their Spring
Meeting held in Toronto, 6-8th May, 1975.

I NATIONAL POLICY NO. 15

CONDITIONS PRECEDENT TO ACCEPTANCE OF SCHOLARSHIP OR EDUCATIONAL PLAN PROSPECTUSES

The Administrators considered the request made on
behalf of the distributor of the Canadian Scholarship
Trust Plans for an increase in the entrance fees or
commissions as set out in paragraph 7 of the policy
from \$175.00 to \$200.00 and concluded that the request
was not unreasonable. The difference in withdrawal
rights between mutual funds contractual sales plans
which give the purchaser 60 days to withdraw without
penalty and paragraph 9 of National Policy No. 15 which
provides for a 30 day withdrawal period were noted.

The administrators concluded that paragraph 7 of the present policy should be amended to provide that the entrance fee should not exceed \$200.00 per plan and that paragraph 9 should be amended to extend the previous right of withdrawal from 30 to 60 days.

So far as any particular plan is concerned the extra commission cannot be charged until an amendment to the current prospectus has been filed with the appropriate provincial administrator and, as necessary, accepted for filing by him disclosing on the one hand that an increased entrance fee will be charged on future sales and on the other hand extending the right of withdrawal to 60 days.

These amended rights and obligations will not apply to contracts presently in force.

II DRAFT NATIONAL POLICY NO. 28

RESTRICTIONS ON THE GRANTING OF 'RIGHTS', OPTIONS, WARRANTS OR CONVERSION FEATURES

(Exposure Draft published 5th December, 1974).

The Administrators, after reviewing the public comments received in response to the invitation extended through the publication of the draft exposure draft on 5th December, 1974, concluded that the draft policy could not be adopted on a 'national' basis and therefore should be withdrawn.

Each province remains free to consider the policy on a 'local' or provincial basis with a view to adopting it in whole or in part and with such amendment as appears reasonable.

Ontario proposes reviewing the matter and, in due course, will publish its conclusions either as a draft local policy for further comment or by advising that it does not intend to proceed.

and the interest paid on the subscriber's capital shall be transferred to a trust fund held by a duly registered trust company which in turn will be administered for the benefit of the beneficiaries of the plans.

- (5) The depository must maintain an accounting system which will permit it to determine the amount of interest produced by the deposit of each subscriber.
- (6) The trust funds shall be administered pursuant to a trust indenture or deed in accordance with the terms detailed in the prospectus, and must contain a provision under which a licensed trust company agrees to act in the place of the foundation in the event that the foundation refuses to or is unable to act.
- (7) The entrance fees charged, including the commissions of the distributor and its salesmen, must not exceed \$200.00 per plan. The first \$100.00 paid under the plan may be applied against this fee and the balance may be deducted at a maximum rate of 50% of each of the further contributions.
- (8) From these fees sufficient funds must be set aside in trust to pay the future costs of administering the trusts established under (6). These funds shall not be used directly or indirectly for any other purpose. The costs of distribution must be borne fully by the distribution company. Any additional sums rebated or otherwise paid by the depository to assist in the payment of the charges for administration of the funds shall be held in trust by the foundation solely for this purpose and shall not be paid directly or indirectly for any other purpose.
- (9) The plan must grant the subscriber the right to withdraw from the plan without any cost to the subscriber within 60 days from the execution of the contract.

- 29 -

- (10) Where the subscriber wishes to withdraw from a plan after 60 days and before 180 days from the date of the execution of the contract:
- (a) The subscriber shall not be obliged to pay any additional fees to those already paid;
 - (b) If the subscriber has made a lump sum payment, he shall forfeit a maximum of \$80.00 of the fee paid and the balance of the fee paid shall be returned by the distribution company and the capital by the depository; and
 - (c) Where the plan is payable over a period of time and the fees paid exceed \$80.00, the subscriber shall be entitled to the return of only 50% of the fees already paid in excess of the \$80.00. The \$80.00 will also be forfeit. The distribution company shall be responsible for the return of the excess fees paid.
- (11) After a period of 180 days the subscriber who cancels his contract may lose the total amount of the fees paid to that point.
- (12) It is considered contrary to the public interest to accept for filing a scholarship plan which calls for the complete forfeiture of the capital and accumulated interest in cases where the plan is abandoned before its maturity. The same shall apply to so-called 'special' plans

NOTE: The above amendments will not apply to existing contracts nor to those that are sold before an amendment to the current prospectus is duly filed with and accepted by the administrator.

ONTARIO SECURITIES COMMISSION

W E E K L Y S U M M A R Y

WEEK ENDING 29TH MAY, 1975.

THE WEEKLY SUMMARY THIS WEEK CONSISTS OF THREE PARTS:
IN ADDITION TO THE USUAL PARTS 'A' AND 'B', THERE IS
A SUPPLEMENT 'X' THAT IS EXPOSURE DRAFT FOR A PROPOSED
REGULATION.

N O T I C E

PROPOSED REGULATION

PORTFOLIO MANAGERS

The Commission has concluded that it is appropriate to establish a specific category of dealer registration for those persons (the majority of whom are presently registered as investment counsel) who are engaged either in whole or in substantial part in the business of management of the portfolio investments of their clients through discretionary authority granted to them by the client. Since, in this special way, they are engaged in trading in securities as agents for the clients the proper registration is as a special class of 'dealer' rather than as an adviser.

The Commission is aware that this type of registrant might be a subsidiary or affiliate of another financial institution or dealer. Special areas of concern are dealt with through Conditions of Registration designed to assure a minimum standard of competence in the individual decision makers, fairness as between clients in the management of accounts and rules designed to avoid conflicts of interest between the registrant, his affiliates and his clients and 'self-dealing' by the registrant and those associated or affiliated with him to the detriment of those clients.

In drafting the proposed regulation, which will be found as Supplement 'X' to this Summary, the Commission has drawn on the standards already established for investment counsel through the Conditions of Registration found in Ontario Regulation 14/75 which came into force on 14th January, 1975. In due course, if the proposal is accepted, consideration will be given to questions of minimum free capital, bonding or insurance and the other matters dealt with for all classes of dealer in subsections 1 to 7 of Regulation 6 to The Securities Act.

Comment is invited concerning the proposed regulation and the other conditions attaching to dealer registration.

Please submit these comments to the Commission Secretary
ON OR BEFORE MONDAY, 16TH JUNE, 1975.

ONTARIO POLICY NO. 3-32

"DEALER MANAGED" MUTUAL FUNDS

On the basis of the submissions made at the public hearings held on 3rd and 4th April, 1975, and the comments concerning the draft policy developed and published following the hearings, the Commission has concluded that the following policies should be adopted where dealers, other than mutual fund dealers, and dealer affiliates act as management companies of mutual funds. The policy is directed to brokers, investment dealers and securities dealers. Mutual fund dealers are already the subject of specific regulation.

1. Definitions

For the purpose of this policy:

- (1) 'dealer manager' means,
 - (a) any broker, investment dealer or securities dealer who acts as a management company;
 - (b) any management company in which any broker, investment dealer or securities dealer or any partner, director, officer, salesman or principal shareholder of a broker, investment dealer or securities dealer directly or indirectly has in the aggregate a more than 10% interest; and
 - (c) any partner, director or officer of such management companies.
- (2) 'dealer managed mutual fund' means a mutual fund having a management contract with a dealer manager.

- (3) 'management company' means a person or company that provides investment advice under a management contract under which a mutual fund is provided with such advice, alone or together with administrative or management services, for valuable consideration.

2. Qualifications of Dealer Managers

Any registered broker, investment dealer or securities dealer may act as a dealer manager provided -

- (a) the Director is satisfied that the dealer manager has one or more individuals who are directly responsible for the portfolio management of the mutual fund who would qualify, if separately registered, for registration as an investment counsel in accordance with the requirements of sub-sections 11 and 17 of O. Reg. 14/75; and
- (b) the dealer manager complies with the laws and policies from time to time promulgated and applicable to all management companies.

3. Prohibited Investments: Dealer Managed Mutual Funds

- (1) A dealer managed mutual fund shall not knowingly make an investment in any class of securities of any issuer, other than those issued or guaranteed by the Government of Canada or a province or territory of Canada, in which,
 - (a) the dealer manager has acted as an underwriter in the distribution of such class of securities of the issuer, excepting as a member of the selling group distributing 5% or less of the securities underwritten, for a period of at least 60 days following the conclusion of the distribution of the underwritten securities to the public;

- (b) any partner, director, officer or employee of the dealer manager is an officer or director.
- (2) A dealer managed mutual fund shall not knowingly purchase the securities of any issuer from the account of any dealer manager or any associate of a dealer manager.
- (3) A dealer managed mutual fund shall not knowingly make any investment by way of loan to any dealer manager or any associate of a dealer manager.
- (4) No dealer managed mutual fund shall knowingly hold an investment made after the coming into force of this policy that is an investment described in this part.

4. Prior Approval of Security Holders

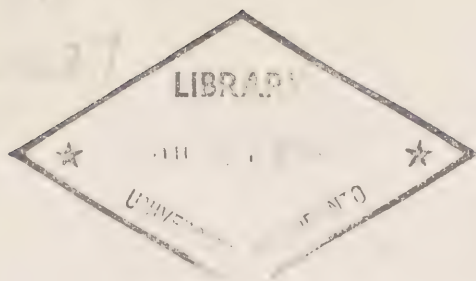

Dealer managed mutual funds shall make provision for the prior approval of shareholders or unit holders before:

- (a) the auditor may be dismissed;
- (b) the investment objectives, policies or practices of the fund are materially changed;
- (c) there is a change of management companies or a material change in the management contract; or
- (d) there is a change of custodian.

5. Additional Financial Disclosure

In addition to the disclosure required by Part XII of The Securities Act, a dealer managed mutual fund shall disclose in its annual financial statements on a comparative basis -

- (a) the aggregate brokerage commission paid by the mutual fund directly or indirectly to any dealer to which the dealer manager is related for the previous twelve months; and
- (b) the management fees paid to the dealer manager for the previous twelve months.

EXPOSURE DRAFT

OSC POLICY NO. 3-02

JUNIOR MINING EXPLORATION AND DEVELOPMENT COMPANIES

On the basis of the briefs presented at the public hearings and subsequent discussions with representatives of the four main interest groups and the staff the Commission has reached tentative conclusions which it now offers for public comment. SUBMISSIONS SHOULD BE MADE ON OR BEFORE FRIDAY, 15TH AUGUST, 1975, TO:

THE SECRETARY,
ONTARIO SECURITIES COMMISSION,
555 YONGE STREET,
TORONTO, M4Y 1Y7.

The draft policy is designed to replace the present OSC POLICY NO. 3-02. Substantial revisions to OSC POLICY NO. 3-03 will also be necessary.

I APPLICATION OF THE POLICY

Policies are guidelines only. The Commission and the Director will always exercise their discretion and are not bound by policies. Special or unusual circumstances will be carefully considered. The Commission also reserves the right to look behind the corporate facade for any attempt to avoid a policy.

Where the securities of the issuer are listed on a recognized stock exchange, that exchange will also be consulted.

II SCOPE OF THE POLICY

Specific consideration must be given to the following parties:

- (a) the public;
- (b) the promoter-entrepreneur;
- (c) the underwriter-distributor; and
- (d) the prospector-vendor.

With the ultimate protection of the public in view, the policy must assure an equitable participation and relationship between the four main interest groups.

III THE PUBLIC

The Commission must ensure that the public:

- (a) is adequately informed as to the true nature and the essential risks of the venture in which it is being asked to participate; and
- (b) receives an equitable share in the ventures for the risk undertaken;

and that the venture is responsibly managed and adequately financed for the benefit of all of the parties.

IV THE COMPANY

- (1) The name of the company should be descriptive of its business, i.e. 'XYZ Exploration and Development Company Limited'. The unqualified words 'Mine' or 'Mining' will not be acceptable in the case of new companies until such time as the company has a proven ore body capable of being profitably mined; e.g. 'XYZ Mines Limited' or 'XYZ Mining Company Limited'. In the case of existing companies there is no need to change its name but face page disclosure on the prospectus must clearly state that it is an exploration and development company unless the company has an ore body.

- (2) The company may have two or more classes of shares including,
 - (a) common shares; and
 - (b) 'special' shares to be known as 'founder's shares' which, subject to the right to apply to the Commission for an extension, carry voting rights equal to 500,000 common shares for a maximum period of three years. (See 'Promoter-Entrepreneur' for further details).
- (3) The policy assumes that the normal authorized capital for a new company will be 3,000,000 common shares and 500,000 'founder's' shares which may be converted upon the payment of additional consideration to the lesser of 25% of the then issued shares or 500,000 common shares. There is nothing to preclude larger capitalization subject to the above limitations.
- (4) The 'use of proceeds' section of the prospectus must detail the proposed disposition of the funds raised through the prospectus, in the first instance, including the repayment of any money advanced by the founder, and the proposed head office expenses. The balance of the funds must be directed, originally, to the exploration and development programme recommended by the engineer's report. The percentage of funds being directed to head office and administrative expenses will be carefully scrutinized.
- (5) As a condition before the receipt for its prospectus, the company will undertake to file with the Commission within twenty-one days of the date to which it is made up, an unaudited statement of changes in financial position (source and application of funds) for each three month period following the date the receipt for the prospectus is issued together with a cumulative statement for the period following the date the receipt for the prospectus is issued to the date of the last three month statement filed. These statements will be reviewed by the Commission's financial surveillance staff.

V

THE PROMOTER-ENTREPRENEUR

- (1) The promoter-entrepreneur may also be prospector-vendor or the underwriter-distributor, but he may not, either directly or indirectly, be all three.
- (2) He shall provide the initial funds required for incorporation, legal, accounting and engineering fees and filing the prospectus as well as any funds required by the company to purchase mining claims.
- (3) The funds advanced will be established by him as a loan to the new company. He may elect reimbursement at any time during the following three years as follows:
 - (a) in cash, after the public financing;
 - (b) as consideration for the payment for free shares at a price not less than that received per share by the company on the initial underwriting or, in the case of a best efforts offering, the net average price received by the treasury through the offering; or
 - (c) a combination of both.
- (4) He will be free to sell these free shares following the financing of the company's treasury through the prospectus or subsequently through a prospectus or any available exemption from the prospectus requirements.
- (5) In order to maintain management control during the early life of the company he shall be entitled, following the property acquisition and after arranging financing, to receive founder's shares carrying with them 500,000 votes but no equity participation. Except when extended following application to the Commission, these shares shall lapse three years after their issue.

- (6) The founder's shares carry with them the right to purchase the lesser of 500,000 common shares or a number of shares equal to 25% of the then issued common shares of the company following completion of the treasury financing upon which that issue of founder's shares was based at a price per share of not less than the maximum price at which the underwritten shares were offered to the public or, in the case of a best efforts financing, the average price at which the shares were sold.
- (7) The founder's shares will lapse and the right to purchase additional common shares with it,
 - (a) where the founder elects to purchase any of the common shares pursuant to the right attaching to the founder's shares; or
 - (b) three years after their issue except where, upon application to the Commission, the founder demonstrates the existence of special circumstances, in which case the Commission may extend the life of the founder's shares for such period as it deems advisable.
- (8) Founder's shares and the rights attaching to them are not transferable except with the consent of the Commission.
- (9) Where, after an adequately financed exploration programme, the mining claims upon which the founder's shares were issued are abandoned and the right to purchase common shares has not been exercised if the promoter-entrepreneur arranges for the company to purchase a new group of claims and arranges the financing for their exploration and development, the life of the existing founder's shares will be renewed for a further three years from the acceptance of the prospectus for filing or, where the founder's shares have lapsed, new founder's shares may issue upon the acceptance of the prospectus for filing for the same term and upon the same conditions as the original founder's shares.

- (10) The founder will be free to sell any shares taken down through the exercise of the rights conferred by the founder's shares following the financing of the company's shares through the prospectus or subsequently through any exemption lawfully available to him.

VI UNDERWRITER-DISTRIBUTOR

- (1) The underwriter-distributor may also be the promoter-entrepreneur but he shall not be, either directly or indirectly, a prospector-vendor. However, this will not prevent him from requiring a 'voluntary' escrow of free shares by the promoter-entrepreneur or the vendor-prospector during the distribution of treasury shares. If the vendor wishes to sell his free shares the underwriter-distributor may purchase them as principal at not less than the underwriting price or the average net price to the treasury in the case of a best efforts offering.
- (2) The minimum underwriting or best efforts offering shall be for not less than \$100,000. net to the company's treasury.
- (3) In the case of an underwriting the underwriter may pay for the shares as they are sold providing the first payment of \$40,000. is made within thirty (30) days of the acceptance of the prospectus for filing, a second payment of \$30,000. within sixty (60) days and the final payment of \$30,000. within ninety (90) days. Payments for larger underwritings shall be pro rated in the same percentages and the same time periods.
- (4) The minimum (net) amount to be received by the treasury is 20¢ per share.
- (5) Where there is a firm underwriting not more than two options will be permitted on the same number of shares and at the same price as the underwriting. The time for exercising the first option shall be not more than 180 days from the date the receipt is issued for the prospectus and the time for exercising the second option 270 days.

- (6) So long as the prospectus is otherwise current and amended up-to-date, further financing may be proceeded with through an amendment to the current prospectus upon payment of the appropriate fees.
- (7) On shares purchased from the company's treasury by the underwriter at prices of 20¢ to \$1.00, he shall agree to pay 75% of any amount he receives for those shares in excess of 100% of his purchase price into the company's treasury. On shares purchased from \$1.01 to \$1.50, the mark-up shall be not more than 65% and over \$1.50 not more than 35%. In each case the underwriter shall agree that 75% of any excess over the maximum mark-up will be paid for the benefit of the company's treasury.
- (8) If the underwriter takes down a minimum of \$200,000. worth of shares net to the company's treasury he shall be entitled to a bonus of fifteen (15) free shares for every 100 shares he purchased from the treasury or subsequently purchases under the underwriting-option agreement.
- (9) Where the dealer sells as agent for the company on a best efforts offering the net payable to the company after deducting commissions and selling expenses shall not be less than 75% of the price received from the public. No bonus shares will be paid.
- (10) The minimum net amount to the treasury in a 'best efforts' offering shall not be less than \$100,000. with all of the proceeds to be held by a trustee acceptable to the Director (usually an Ontario registered trust company). The trustee will not transmit these funds to the company until the minimum amount established through the prospectus, including commissions and other sales expenses, has been received or, alternatively, where the minimum has not been received within the time specified the trustee will then return the subscriptions to the subscriber without any deductions. A 'best efforts' offering will normally remain open for ninety (90) days but this period may be shortened or extended in the discretion of the Director.

VII PROSPECTOR-VENDOR

- (1) The greatest flexibility will be allowed in the structuring of genuinely arm's length agreements between a company and the prospector-vendor whether the agreement is by way of outright purchase or through an option agreement, and subject to the restrictions in (2), whether for free shares or cash or a combination of both and whether or not the vendor retains a carried interest or a royalty.
- (2) The vendor may receive a maximum of 100,000 free shares on an outright purchase or 500,000 free shares on an option agreement extending for five years or more with option payments of not more than 50,000 free shares per year, provided that the total number of free vendor shares paid in either case shall not equal more than 25% of the remaining shares issued and outstanding at the conclusion of the agreement.
- (3) The underwriter-distributor or an associate of the underwriter-distributor shall not directly or indirectly be the vendor. This shall not prohibit the underwriter-distributor from requesting the vendor to enter a 'voluntary' escrow during the offering of the company's treasury stock. If the vendor wishes to sell his free shares as part of this distribution the underwriter-distributor may purchase them from the vendor as principal at a price not less than the underwriting price or the average net price to the treasury in the case of a best efforts offering.
- (4) Where the vendor is also the promoter, independent sources must verify the vendor consideration as reasonable and, if after a hearing, the Director is unable to reach this conclusion that the consideration is reasonable, his decision may be appealed in accordance with the Act to the Commission and from the Commission to the Court.

- (5) These limits will apply to each property acquired by the company.
- (6) While it is not feasible to cancel all existing escrow agreements every effort should be made as existing companies arrange new financing to develop newly acquired properties to reduce the number of escrowed shares outstanding through a donation back of escrowed shares for the benefit of the company and their release so that the subsequent financing might proceed in the light of this more flexible philosophy.

VIII ASSISTANCE AVAILABLE FOR PROSPECTOR-VENDORS, PROMOTERS
AND DISTRIBUTOR-UNDERWRITERS

The Commission, through the Director, will seek to establish the following practices and procedures:

- (1) In general, the Director or his designated Deputies will be available to discuss problems in anticipation of incorporation and public financing and to offer preliminary opinions as to a particular proposed corporate or business structure, property acquisition and vendor consideration, and financing agreement. The understandings reached should be confirmed in writing to avoid misunderstandings with the conclusions and the facts upon which those conclusions were based being clearly set out. It is suggested that this can be done by the person initiating the discussion writing to the Director and asking him to confirm the understanding.
- (2) While appreciating the difficulties raised, the Commission will continue to request its technical consultant to advise the Director when a property does not appear to warrant public financing for its exploration and development. An adverse opinion shall be referred at the request of the applicant to the Property Advisory Committee, who will review the facts and make a further recommendation to the Director. This is not intended to reject high risk properties, but only those properties that on the basis of present knowledge have no apparent merit.

- (3) The holder of the property or the potential purchaser are invited to make application prior to entering an agreement for a ruling as to whether the property is considered publicly financeable. The property, with the available technical data, will be referred to the Commission's technical consultant, as described in (2).
- (4) Any prospector or other person wishing to sell claims or obtain financing to explore and develop mining claims may contact the Director or his designated Deputies firstly to determine whether the property is publicly financeable, and secondly, to obtain information about the alternative methods of financing, e.g. grub stake, prospecting syndicate, short form mining exploration prospectus, security issuer, or through its sale to a company.
- (5) The Commission will maintain an up-to-date list of persons who have promoted and financed exploration and development companies. This list will be given to anyone seeking financing for the exploration and development of a property.
- (6) Staff advice will be provided to assist a prospector in drafting a prospecting syndicate agreement or the short form mining exploration and development company prospectus.
- (7) The Property Advisory Committee, as contemplated, will consist of panels of at least three members chaired by a representative of the Prospectors and Developers Association. Panel members will be drawn from the lists supplied by the Mining Section of the Professional Engineer's Association of Ontario, the Ministry of Natural Resources and other appropriate bodies.

IX THE OTC MARKET

The existing Ontario OTC market reporting system is being revised so that it will report all trades in and from Ontario. Based upon the published reports interested parties in the industry may feel sufficient volume exists to warrant the establishment of a more structured 'curb market'.

NOTICE I

FINANCIAL STATEMENTS - APPLICATION FOR EXEMPTIONS

Reporting issuers contemplating a variation from the financial disclosure requirements of The Securities Act and the parallel requirements of The Ontario Business Corporations Act consequent upon change of year-end, such as, for example, the omission of comparative figures, are reminded of the necessity to apply to the Commission prior to the publication of the financial statements for an order exempting the reporting issuer or permitting a variance from the requirements of the appropriate Act. The Commission is unable to exempt from or vary any of the requirements after the reporting issuer has already defaulted in this obligation.

Many accounting problems arise from the obligation to provide shareholders with comparative figures following a year-end change. The Commission is of the view that while the directors of a reporting issuer must be given reasonable freedom to change corporate year-ends on the basis of proper business considerations, they continue to have an obligation to provide figures to shareholders on a comparative basis. Any variations from the requirements of the Acts must be approved in advance by the Commission.

THE TORONTO STOCK EXCHANGE COMMISSION RATE SURCHARGE

Following hearing before the full Commission, The Toronto Stock Exchange was informed that their application to continue the 10% surcharge until 30th November, 1975, was acceptable at this time conditional upon them making application to the Commission with all relevant support material not later than 14th November, 1975, for a further possible continuation of the surcharge rates after 30th November, 1975. However, the Exchange is free to make application to the Commission for a hearing to consider moving from fixed rate commissions to negotiated rate commissions at any time.

CONDITION OF REGISTRATION
OVER-THE-COUNTER TRADING REPORTS
OTC MANUAL FOR REGISTRANTS

I PURPOSE OF THE REPORT

A distinction must be drawn between the main markets for securities in Canada, that is the 'listed' or auction markets provided by the Montreal, Toronto, Winnipeg, Alberta and Vancouver Stock Exchanges and the 'over-the-counter' ('OTC'), 'unlisted' or negotiated markets through which stocks, bonds and money market instruments are traded. Since dealers are linked by telephone and telex, the over-the-counter market can be at the same time local, national and international. This reporting system is primarily designed to assemble and report transactions in unlisted securities, other than bonds or money market instruments, where one or both sides of the transaction takes place in Ontario, that is through the Ontario OTC market.

A substantial volume of this trading is professional trading between registrants. These are actual transactions for the accounts of the professionals. This trading is an important part of the market mechanism. In order that the real volume might be available, this professional trading must be reported as well as the clients' trading.

The system is designed to record all trades, buys and sells, where one or both sides of the trade occur in Ontario. The sell side of the transaction will be publicly reported whether the purchase was or was not effected through an Ontario dealer excepting in the case where the Ontario dealer purchases from a bank, trust company or non-Ontario dealer in which case the trade will be specifically noted and reported. This will give the actual volume of trades and prices of all transactions effected within and from Ontario.

It is through the mechanism of the OTC market that new stock issues trade until the issuers qualify for listing on one or more stock exchanges. As well as those which do not qualify for listing there are stocks whose issuers do not choose to apply for listing and which trade permanently through the OTC market. In addition, on occasion, with the permission of the applicable stock exchange the facilities of the OTC market are used for the distribution of large offerings of listed securities.

The purpose of the system is, firstly, to provide details of the trades made by dealers each day so that the detail and the volume of the trading in shares of reporting issuers might be published prior to the opening of the next day's trading for the information of the public and the dealers. This will foster informed investment, better markets and facilitate trading in the shares of the particular issuer. Secondly, it provides statistical data of all trading and enables the Commission to maintain surveillance over the trading in support of its timely disclosure policy. The latter is aimed at providing an equal opportunity for information to all investors.

II REPORTING ISSUERS: PUBLICATION OF TRADING

While all trades must be reported, the Commission concluded that it is in the public interest to confine the benefit of publication in the daily trading reports currently appearing in the newspapers to those issuers, commonly styled "reporting issuers", who have assumed the obligation of continuous disclosure and whose insiders are subject to insider trading obligations under The Securities Act and The Ontario Business Corporations Act or their successors. Trading in the securities of non-reporting issuers must be reported into the system but will not be published.

Where there is a distribution to the public through a prospectus or rights offering at

a fixed or offering price and, at the same time, there is trading in previously distributed securities through the OTC market, these prices are frequently different. In order that the distinction may be clearly shown, trades in the secondary market will be reported on one line beside the name of the issuer and trades effected as part of the distribution will be shown on the line below. The latter will be distinguished by a symbol placed beside it and a footnote stating, "Sold through Current Prospectus (Rights) Offering".

III TRADING PROCEDURES

Prices in the OTC market are determined by negotiation between buyers and sellers. In quoting a "market" on unlisted securities, there are two types of quotes:

1. "Firm markets"; and
2. "Subject markets".

If the quote is "firm", the price is one at which at least one board lot will be purchased or sold by the person making the quote. If the quote is "subject", it is subject to confirmation and the price quoted does not represent an actual offer to buy or sell at the time the "subject market" is quoted. Registrants must use precise language in quoting the market so that it is clear to both parties whether the market is "firm" or "subject".

One key to a healthy OTC system is the "Market Maker" who is obliged to call a "firm market", both a bid and an offer. The Market Maker must be prepared to buy or sell at least one board lot. A Dealer must check the market with at least two Market Makers before executing an order for a client or an office cross excepting where there is only one Market Maker. The Dealer is obliged to execute the trade with a Market Maker unless he can obtain a better price for his client elsewhere.

The Register of Unlisted Securities contains a list of the Market Makers.

There are a number of stocks which trade infrequently for which it cannot be said a market exists at any given time. The IDA will attempt to arrange for a 'Quote Maker' for each such issuer who will undertake a continuing interest in that issuer. Dealers receiving orders or enquiries about such infrequently traded stocks should contact the Quote Maker for his estimate of the market.

IV REPORTING TRANSACTIONS TO THE IBM DATACENTRE

1. Transactions to be Reported

All purchases and sales in and from Ontario by Ontario dealers in Industrial, Mine and Oil, common and preferred shares, units of REITS, warrants and rights which are not listed on a stock exchange are to be reported daily to the IBM Datacentre, 3rd Floor, Royal Trust Tower, Toronto-Dominion Centre. This includes all purchases and sales by Ontario dealers with other dealers, bank and trust companies, and non-Ontario dealers.

2. Methods of Reporting

(a) Dealers on IBM Datacentre

A special IBM programme will process the 'Calculated Trade Reports' used to prepare the Toronto OTC trading blotters for the firms using the Datacentre. This programme will extract for publication all sales made in and from Ontario in the designated securities and all purchases where the seller is a bank, trust company or non-Ontario dealer. All OTC trades in the designated securities executed in Ontario are to be reported to IBM as 'TU' or 'TM' market trades.

(b) Dealers with their own Computers

These firms may submit a punched card for each trade. The card will contain the following information:

- Registrant Number
- Security Number
- Agent or Principal trade classification
- Bought or sold quantity
- Price

Registrants wishing to submit punched cards must make special arrangements with the IDA.

NOTE: Registrants submitting punched cards will report their professional trading, in addition to their client trades, with the professional trading punched to show a principal transaction.

(c) All Other Dealers

These firms will submit a daily summary of their trading in the designated securities. Their professional transactions, both purchases and sales, will be reported as principal transactions.

3. Board Lots and Odd Lots

Board lots in the OTC market are as follows:

- (a) for mines and oils
- 1,000 shares, if market price is below .10¢;
 - 500 shares, if market price is .10¢ or more and below \$1.00;
 - 100 shares, if market price is \$1.00 or more;

(b) for all other stocks

- 100 shares, if market price is below \$25.00
- 25 shares, if market price is at or above \$25.00 and below \$100.00
- 10 shares, if market price is at \$100.00 or above

For reporting purposes only a transaction in more than a board lot is to be considered a board lot even though it consists of a board lot plus an odd lot provided the prices are the same.

4. Trading Day

The reporting day for unlisted stocks will be 9:00 a.m. to 5:00 p.m. Any unlisted transactions after 5:00 p.m. should be reported the next business day.

5. Deadlines for Reporting

Dealers using the Datacentre will not be affected by the collection of this data but will still be required to have their trade tickets at the Datacentre not later than 6:00 p.m. each day. Dealers with their own computers and all other dealers will be required to submit their punched cards or completed summaries by 8:00 p.m. each evening.

6. Nil Reports

Nil reports are required weekly from Dealers who are not on the Datacentre and who have no trades in the designated industrial, mine and oil stocks. Nil reports are to be sent to the IDA office, P.O. Box 217, Commerce Court South, Toronto, Ontario, M5L 1E8, each Friday.

7. Penalty for Failure to Report by Deadline

Failure to meet these requirements, or the submission of incomplete or inaccurate reports,

will be viewed by the Commission as reasons for questioning the fitness for continued registration.

V THE REGISTER: PUBLICATION OF TRADING REPORTS

1. Register of Unlisted Securities

Since every trade occurring in Ontario must be reported, an IBM number will be given to each stock on the Register. New names will be added to the Register when the Commission notifies IDA that the prospectus has been accepted for filing or, upon application to the Commission where no prospectus has been filed and the company is not a "reporting issuer". The name will be removed from the register if its securities are listed on one or more stock exchanges or on the consent or direction of the Commission.

Each dealer will be provided with a list of OTC industrials, mines, oils and other securities registered for trading in the Ontario OTC market. Dealers will enter the IBM number given to each security on the Register beside the name of such security in their completed forms - OTC-1 - OTC-2. If the security, name and number does not appear on the security register, a number must be applied for through the IDA.

2. The Daily Report

IBM will provide a daily report to the IDA and the Commission of all trading. In addition, it will provide a report to the press giving the following information:

<u>Security Name</u>	<u>Volume</u>	<u>High</u>	<u>Low</u>
----------------------	---------------	-------------	------------

These daily reports, by selecting the sales only in the case of dealer sales to other Ontario dealers, banks, trust companies and non-Ontario dealers, and purchases by Ontario dealers from bank, trust companies and non-Ontario dealers, should give an accurate report of the volume of

trading in the Ontario OTC market. The public Volume/High/Low report will show both the highest and lowest price transaction on that day and the actual volume. Odd lot prices will be shown separately in the daily report and designated through a symbol beside the price of the security with a footnote "odd lot price".

In the case of agency trades the transfer price, as opposed to the net price, will be shown in the daily reports.

Where an issuer is in default of its reporting requirements under The Securities Act or the Ontario Business Corporations Act, where the trades are permitted by the Commission to be published in the daily press report, the default will be noted by a symbol beside the name of the issuer and a footnote, "issuer in default of statutory disclosure requirements". The symbol will be added and deleted by the IDA on the instructions of the Commission.

3. Criteria for Publication of OTC trading

The criteria for inclusion in the published over-the-counter list, as stated in OSC policy 3-21, is that all up-to-date reporting issuers will be programmed into the data published by IBM for the press so long as the issuer is up-to-date in filing the reports with the Commission required under the Ontario Securities Act and the Business Corporations Act. Trading in new issues will be published once the Commission notifies IDA that the prospectus has been accepted for filing and all secondary trades can then be reported. The IBM report will distinguish between securities sold through a prospectus or rights offering and those traded in the secondary market. The secondary market trades will be reported first while the shares distributed through the prospectus or rights offering will appear on the next line and be designated by a symbol with a footnote stating, "Sold through Current Prospectus (Rights) Offering".

4. Removal from Published List

The securities will be removed from the list if,

- (a) they become listed on a stock exchange;
- (b) upon notification to IDA by the Commission that the issuer is in default of its reporting requirements. (In rare cases, where the Commission views it as being in the public interest to continue publishing the trading, it will instruct that a symbol be placed beside the name of the issuer and a footnote stating, "in default of statutory disclosure requirements".); and
- (c) upon notification to IDA by the Commission that the issuer has become a "non-reporting issuer".

VI DESIGNATION OF "MARKET MAKERS" AND "QUOTE MAKERS"

The dealer wishing to act as a Market Maker or Quote Maker should advise the IDA in writing giving the name of the issuer and the class of security.

Before being designated as a Market Maker for a particular security, the dealer must undertake in writing to do so for a period of not less than 30 days from the date of designation. At the end of this time, the dealer may withdraw as a Market Maker by giving the IDA at least seven clear days' notice in writing of his intention to withdraw. During this period, the Market Maker is obliged to purchase or sell at least one board lot.

The "Quote Maker" merely undertakes to maintain a continuing interest in the particular

issuer so that he may respond to enquiries about what are normally infrequently traded securities.

Managing underwriters (syndicate managers) who are members of IDA and who have acted as principals are required by IDA to act as Market Makers for 90 days after the managing underwriter has notified the Commission of cessation of distribution to the public if there is no other Market Maker in the security.

The names of the Market Makers and Quote Makers will be included in the register. Changes between editions of the register can be obtained through IDA.

NOTE — ALL TRANSACTIONS EXECUTED IN ONTARIO IN DESIGNATED STOCKS ARE TO BE REPORTED. HIGH/LOW PRICES ARE SHOWN AS THREE DECIMALS.

RE-DRAFT OF PROPOSED REGULATION

'PORTFOLIO MANAGERS'

1. Subsection 2 of section 2 of Regulation 794 of Revised Regulations of Ontario is amended by adding thereto the following clause:
 - 1a. Portfolio manager, being an investment counsel that manages investment portfolios of clients through discretionary authority granted by such clients.
2. Section 6 of Regulation 794 of Revised Regulations of Ontario, 1970, as amended by Ontario Regulation 14/75 is amended by adding thereto the following subsections:
 - 20a. For the purpose of subsection 20b 'responsible person' means, with respect to a portfolio manager,
 - (i) the portfolio manager and every individual who is a partner, director or officer thereof; and
 - (ii) every affiliate of the portfolio manager and every individual who is a director, officer or employee of such an affiliate or who is an employee of the portfolio manager if such affiliate or such individual participates in the formulation of investment decisions made on behalf of or advice given to a client of the portfolio manager.
 - 20b. Registration as a portfolio manager shall be subject to the following conditions:
 - (a) No individual shall make investment decisions or offer advice on behalf of the portfolio manager unless such individual has been designated or approved as a partner or officer of the portfolio manager.

- (b) The portfolio manager shall maintain standards directed to ensuring fairness in the allocation of investment opportunities among its clients and a copy of the policies established shall be furnished to each client and filed with the Commission.
- (c) The portfolio manager shall charge a client directly for its services and the charges may be based upon the dollar value of the client's portfolio but not on the value or volume of transactions initiated for the client and, except with the written agreement of the client, shall not be contingent upon profits or performance.
- (d) The account of each client of the portfolio manager shall be supervised separate and distinct from the account of each other client and, except in the case of accounts of mutual funds or pension funds, an order to purchase or sell a security for one account shall not be pooled with the order for another account.
- (e) A trade in a security for the account of a client of the portfolio manager shall be executed through a dealer except where the trade is exempt from registration under subsections 1, 2, 3 or 4 of section 19 of the Act.
- (f) The portfolio manager shall obtain an undertaking from each responsible person other than himself or itself not to trade for his or its own account or knowingly permit or arrange for any associate to trade in reliance upon information as to trades made or to be made for the accounts of clients of the portfolio manager and the portfolio manager shall establish and maintain procedures designed to disclose when a responsible person or an associate of such a responsible person has contravened the undertaking.

(g) The portfolio manager shall not knowingly for the account of a client:

- (i) invest in any issuer in which a responsible person or an associate of a responsible person is an officer or director unless the specific fact is disclosed to the client and the client's written consent to the investment is obtained prior to the purchase;

The Commission renewed the exemption under S.19(1)3 for the ensuing twelve months.

CANADIAN HIDROGAS RESOURCES LTD.

The Commission made no order on an application under S.59 in respect to company staff in the matter of stock options to them as in its view the offering was exempted by Section 19(1)10.

OTIS ELEVATOR COMPANY

On an application under S.90 by United Technologies Corporation for a takeover bid for Otis Elevator Company to be declared an exempt offer, the Commission directed the applicant to publish an advertisement acceptable to the Commission immediately in The Globe and Mail and The Hamilton Spectator drawing to the attention of Ontario shareholders of Otis Elevator Company the fact that this takeover bid has been made in the USA. The advertisement is to clearly indicate the number of shares being sought; the percentage they represent of the issued and outstanding stock; the price for the offer; the time the offer remains open

together with information as to the possibility of extension and the subsequent take-up provisions that would apply. The advertisement is also to advise shareholders to communicate with their broker or seek information from Tory, Tory, DesLauriers & Binnington, Attention: J. Garnet Pink, Esq., Suite 1600, 11 King Street West, Toronto, Ontario, M5H 1B1, Special Canadian Counsel of United Technologies Corporation, without delay for full details of the takeover bid.

The terms of the offer are as follows:

- (1) to purchase a minimum of 2,500,000 and maximum of 4,500,000 outstanding shares of common stock of Otis Elevator Company;

- (6) if fewer than 2,500,000 shares are tendered, United Technologies Corporation may, at its option, elect to purchase all (but not less than all) of the shares so tendered;

- (9) if the offer is extended beyond 10.00.a.m. 27th October, 1975, and fewer than all of the shares tendered after that time are to be purchased then the shares will be purchased by the Depository in the order in which they were tendered.

Form 2 required to be filed under the Canada Corporations Act reporting therein such acquisitions and dispositions and disclosing the holdings of each insider in the Registered Retirement Savings Plan at the end of June in each and every year. SUPPLEMENT 'X' TO WEEKLY SUMMARY, WEEK ENDING 4 DECEMBER, 1975.

EXPOSURE DRAFT

OSC POLICY NO. 3-02

JUNIOR MINING EXPLORATION AND DEVELOPMENT COMPANIES

On the basis of the briefs presented by representatives of the four main interest groups and the staff, and following consultation with the Quebec Securities Commission, the two Commissions have revised the July tentative conclusions which they now offer for public comment. SUBMISSIONS SHOULD BE MADE ON OR BEFORE WEDNESDAY, 31ST DECEMBER, 1975, TO:

THE SECRETARY,
ONTARIO SECURITIES COMMISSION,
555 YONGE STREET,
TORONTO, ONTARIO.
M4Y 1Y7

The draft policy is designed to replace the present OSC POLICY NO. 3-02. Substantial revisions to OSC POLICY NO. 3-03 will also be necessary. It is hoped the new policy will become effective 19 January, 1976.

I APPLICATION OF THE POLICY

Policies are guidelines only. The Commission and the Director will always exercise their discretion and are not bound by policies. Special or unusual circumstances will be carefully considered. The Commission also reserves the right to look behind the corporate facade for any attempt to avoid a policy.

Where the securities of the issuer are listed on a recognized stock exchange, that exchange will also be consulted.

II SCOPE OF THE POLICY

Specific consideration must be given to the following parties:

- (a) the public;
- (b) the promoter-entrepreneur;
- (c) the underwriter-distributor; and
- (d) the prospector-vendor.

With the ultimate protection of the public in view, the policy must assure an equitable participation and relationship between the four main interest groups.

III THE PUBLIC

The Commission must ensure that the public:

- (a) is adequately informed as to the true nature and the essential risks of the venture in which it is being asked to participate; and
- (b) receives an equitable share in the ventures for the risk undertaken;

and that the venture is responsibly managed and adequately financed for the benefit of all of the parties.

IV THE COMPANY

- (1) The name of the company should be descriptive of its business, i.e. 'XYZ Exploration and Development Company Limited'. The unqualified words 'Mine' or 'Mining' will not be acceptable in the case of new companies until such time as the company has a proven ore body capable of being profitably mined; e.g. 'XYZ Mines Limited' or 'XYZ Mining Company Limited'. In the case of existing companies there is no need to change its name but face page disclosure on the prospectus must clearly state that it is an exploration and development company unless the company has an ore body.

(2) The company may have two or more classes of shares including,

(a) common shares; and

(b) up to a maximum at any given time of 500,000 "special" or "promoters'" shares carrying the following rights, conditions and limitations:

(i) each carries one vote and, subject to earlier conversion or cancellation, lapses five years from the date of issue;

(ii) no equity participation;

(iii) the lesser number of 500,000 or 25% of the number of common shares issued for cash to the time of conversion are convertible on a share for share basis for common shares upon payment of consideration for the common shares as follows:

1. one and one half times the maximum price received by the company through the first underwriting or best efforts financing which establishes the right to convert a specific number of promoters' shares; and
2. one and one half times the maximum price received by the company through each subsequent underwriting or best efforts financing which establishes the right to convert a specific numbers of additional promoters' shares,

provided that the rights of conversion may be accumulated and exercised so long as the promoters' shares have not been cancelled or lapsed.

- (iv) the balance of the issued and outstanding promoters' shares will be cancelled upon the financing of an exploration and development program through a prospectus for any second or subsequent group of mining claims or with the consent of the holder.
- (3) The 'use of proceeds' section of the prospectus must detail the proposed disposition of the funds raised through the prospectus, in the first instance, including the repayment of any money advanced by the promoter, and the proposed head office expenses. The balance of the funds must be directed, originally, to the exploration and development programme recommended by the engineer's report. The percentage of funds being directed to head office and administrative expenses will be carefully scrutinized.
- (4) As a condition before the receipt for its prospectus, the company will undertake to file with the Commission within twenty-one days of the date to which it is made up, an unaudited statement of changes in financial position (source and application of funds) for each three month period in the company's fiscal year commencing with the three month period which commenced on or prior to the date on which the receipt for that prospectus issued together with a cumulative statement for each subsequent period. These statements will be reviewed by the Commission's financial surveillance staff.
- (5) Upon application of the company made one year or more after the company undertakes to file cumulative statements of changes in financial position and upon being satisfied that the funds raised through the prospectus or through subsequent financing have been properly expended for the purposes set out in the prospectus, the Commission may make an order on such terms and conditions as it may impose relieving the company of its undertaking.

V

THE PROMOTER-ENTREPRENEUR

- (1) The promoter-entrepreneur may also be prospector-vendor, but he may not, either directly or indirectly, be or be associated with the underwriter-distributor.

- (2) He shall provide the initial funds required for incorporation, legal, accounting and engineering fees and filing the prospectus as well as any funds required by the company to purchase mining claims.
- (3) The funds advanced will be established by him as a loan to the new company. He may elect reimbursement at any time:
 - (a) in cash, after public financing;
 - (b) as consideration for the payment of shares at a price not less than that received per share by the company on the initial underwriting or, in the case of a best efforts offering, the net average price received by the treasury through the offering; or
 - (c) a combination of both.
- (4) He will be free to dispose of these shares following the financing of the company's treasury through the prospectus or subsequently through a prospectus or any available exemption from the prospectus requirements.
- (5) In order to maintain management control during the early life of the company, he shall be entitled, following the property acquisition and after arranging financing, to receive promoters' shares carrying with them a maximum of 500,000 votes but no equity participation. Unless converted into common shares in accordance with paragraph (6) or cancelled under paragraph (9), these shares shall lapse five years after their issue.
- (6) The promoters' shares, so long as they have not lapsed or are cancelled, are convertible into common shares on the basis of the lesser number of 500,000 or 25% of the number of common shares issued for cash to the time of conversion. The right to convert is on a share for share basis. The number and prices at which the shares may be

converted is determined by taking 25% of the number of shares issued for cash to the time of conversion less the number of promoters' shares already converted or to which conversion rights have already been attached. The consideration for the payment of the common shares is as follows:-

- (i) one and one half times the maximum price received by the company through the first underwriting or best efforts financing which establishes the right to convert a specific number of promoters' shares, and
- (ii) one and one half times the maximum price received by the company through each subsequent underwriting or best efforts financing which establishes the right to convert specific numbers of additional promoters' shares,

provided that these rights of conversion may be accumulated and exercised so long as the promoters' shares have not been cancelled or lapsed.

- (7) Except as provided in (9), the promoters' shares lapse, as they are converted to common shares or at the end of five years.
- (8) Promoters' shares and the rights attaching to them are not transferable except with the consent of the Commission.
- (9) Where, after an adequately financed exploration program, a promoter-entrepreneur arranges for the company to purchase a new group of claims and arranges the financing for their exploration and development, new promoters' shares may issue upon the acceptance of the prospectus for filing upon the same conditions as the original promoters' shares and the previously issued unconverted promoters' shares will be cancelled to permit the issuance of a further 500,000 promoters' shares provided, however, that where a promoter has earned the right to convert specific numbers of special shares at specific prices but has not done so, he may require the company to grant him warrants to purchase

the shares at those prices exercise-able to the end of the five year period of what would otherwise have been the five year life of the special shares.

- (10) The promoter is free to sell common shares purchased through the conversion of promoters' shares through a prospectus or any exemption available for him at any time 6 months or more following the date of the receipt for the prospectus relating to the financing upon which the issuance of the promoters' shares which were converted was based.

VI

UNDERWRITER-DISTRIBUTOR

- (1) The underwriter-distributor may not be directly or indirectly the promoter-entrepreneur or a prospector-vendor. However, this will not prevent him from requiring a "voluntary" escrow of free shares by the promoter-entrepreneur or the vendor-prospector during the distribution of treasury shares. If the vendor wishes to sell his free shares, the underwriter-distributor may purchase them as principal at not less than the underwriting price or the average net price to the treasury in the case of a best efforts offering.
- (2) The minimum underwriting or best efforts offering shall be for not less than \$75,000 net to the company's treasury.
- (3) In the case of a minimum underwriting, the underwriter may pay for the shares as they are sold providing the first payment of \$30,000 is made within thirty (30) days of the acceptance of the prospectus for filing, a second payment of \$25,000 within sixty (60) days and the final payment of \$20,000 within ninety (90) days. Payments for larger underwritings shall be pro-rated in the same percentages.
- (4) The minimum (net) amount to be received by the treasury is .20¢ per share.
- (5) Options will not be permitted.
- (6) The offer must be at a fixed price which must appear on the face page of the prospectus.

- (7) While there is no maximum price ceiling at which shares may be offered for sale by the underwriter, if the underwriter decides to offer the shares at a price in excess of 100% of the underwriting price from the company's treasury, he shall pay 60% of such excess to the company. The amount to be received by the company shall be disclosed on the face page of the prospectus.
- (8) In the event the underwriter-distributor is unable to sell the whole of the underwriting at the price stated on the face page of the prospectus and consequently finds it necessary to reduce its offering price, the net amount to be received by the company shall not be reduced. The underwriter-distributor shall immediately notify the Commission of any change in the offering price.
- (9) So long as the prospectus is otherwise current and amended up-to-date, further financing may be proceeded with through an amendment to the current prospectus upon payment of the appropriate fees.
- (10) If the underwriter takes down a minimum of \$150,000 worth of shares net to the company's treasury within one year of the receipt for the prospectus, he shall be entitled to a bonus of fifteen (15) shares for every 100 shares he purchased from the treasury.
- (11) Where a dealer sells as agent for the company on a best efforts offering the net payable to the company after deducting commissions and selling expenses shall not be less than 75% of the price received from the public. No bonus shares shall be paid.
- (12) The minimum net amount to the treasury in a 'best efforts' offering shall not be less than \$75,000 with all of the proceeds to be held by a trustee acceptable to the Director. The trustee will not transmit these funds to the company until the minimum amount established through the prospectus, including commissions and other sales expenses, has been received or, alternatively, where the minimum has not been received within the time specified the trustee will then return the subscriptions to the subscriber without any deductions. A 'best efforts' offering will normally remain open for ninety (90) days but this period may be shortened or extended in the discretion of the Director.

VII

PROSPECTOR-VENDOR

- (1) The greatest flexibility will be allowed in the structuring of genuinely arm's length agreements between a company and the prospector-vendor whether the agreement is by way of outright purchase or through an option agreement, and subject to the restrictions in (2), whether for free shares or cash or a combination of both and whether or not the vendor retains a carried interest or a royalty.
- (2) The vendor may receive a maximum of 100,000 free shares on an outright purchase or 500,000 free shares pursuant to an option agreement extending for five years or more with option payments of not more than 50,000 free shares per year, provided that the total number of free vendor shares paid in either case shall not equal more than 25% of the remaining shares issued and outstanding at the conclusion of the agreement.
- (3) The underwriter-distributor or an associate of the underwriter-distributor shall not directly or indirectly be the vendor. This shall not prohibit the underwriter-distributor from requesting the vendor to enter a 'voluntary' escrow during the offering of the company's treasury stock. If the vendor wishes to sell any of his free shares as part of such an offering the underwriter-distributor may purchase them from the vendor as principal at a price not less than the underwriting price or the average net price to the treasury in the case of a best efforts offering.
- (4) Where the vendor is also the promoter, independent sources must verify the vendor consideration as reasonable and, if after a hearing, the Director is unable to reach this conclusion that the consideration is reasonable, his decision may be appealed in accordance with the Act to the Commission and from the Commission to the Court.

- (5) These limits will apply to each property acquired by the company.
- (6) While it is not feasible to cancel all existing escrow agreements every effort should be made as existing companies arrange new financing to develop newly acquired properties to reduce the number of escrowed shares outstanding through a donation back of escrowed shares for the benefit of the company and their release so that the subsequent financing might proceed in the light of this more flexible philosophy.

VIII ASSISTANCE AVAILABLE FOR PROSPECTOR-VENDORS, PROMOTERS
AND DISTRIBUTOR-UNDERWRITERS

The Commission, through the Director, will seek to establish the following practices and procedures:

- (1) In general, the Director or his designated Deputies will be available to discuss problems in anticipation of incorporation and public financing and to offer preliminary opinions as to a particular proposed corporate or business structure, property acquisition and vendor consideration, and financing agreement. The understandings reached should be confirmed in writing to avoid misunderstandings with the conclusions and the facts upon which those conclusions were based being clearly set out. It is suggested that this can be done by the person initiating the discussion writing to the Director and asking him to confirm the understanding.
- (2) While appreciating the difficulties raised, the Commission will continue to request its technical consultant to advise the Director when a property does not appear to warrant public financing for its exploration and development. An adverse opinion shall be referred at the request of the applicant to the Property Advisory Committee, who will review the facts and make a further recommendation to the Director. This is not intended to reject high risk properties, but only those properties that on the basis of present knowledge have no apparent merit.

- (3) The holder of the property or the potential purchaser are invited to make application prior to entering an agreement for a ruling as to whether the property is considered publicly financeable. The property, with the available technical data, will be referred to the Commission's technical consultant, as described in (2).
- (4) Any prospector or other person wishing to sell claims or obtain financing to explore and develop mining claims may contact the Director or his designated Deputies firstly to determine whether the property is publicly financeable, and secondly, to obtain information about the alternative methods of financing, e.g. grub stake, prospecting syndicate, short form mining exploration prospectus, security issuer, or through its sale to a company.
- (5) The Commission will maintain an up-to-date list of persons who have promoted and financed exploration and development companies. This list will be given to anyone seeking financing for the exploration and development of a property.
- (6) Staff advice will be provided to assist a prospector in drafting a prospecting syndicate agreement or the short form mining exploration and development company prospectus.
- (7) The Property Advisory Committee, as contemplated, will consist of panels of at least three members chaired by a representative of the Prospectors and Developers Association. Panel members will be drawn from the lists supplied by the Mining Section of the Professional Engineer's Association of Ontario, the Ministry of Natural Resources and other appropriate bodies.

IX THE OTC MARKET

The existing Ontario OTC market reporting system is being revised so that it will report all trades in and from Ontario. Based upon the published reports interested parties in the industry may feel sufficient volume exists to warrant the establishment of a more structured 'curb market'.

ONTARIO SECURITIES COMMISSION

WEEKLY SUMMARY

WEEK ENDING 18TH DECEMBER, 1975

THE COMMISSION TAKES THIS OPPORTUNITY OF WISHING THE SECURITIES INDUSTRY AND THOSE WHO SUBSCRIBE TO THE WEEKLY SUMMARY THE COMPLIMENTS OF THE SEASON AND TO ADVISE THEM THAT THE NEXT ISSUE OF THE WEEKLY SUMMARY WILL BE 8TH JANUARY, 1976.

NOTICE

The position of investors in companies against whose securities cease trading orders have been made has been recently considered by the Commission.

On occasion, an investor who has purchased a security later finds himself unable to obtain registration of the security in his own name by reason of a cease trading order having been made in the interval. Under a recently established practice, where a bona fide trade has been effected before the date of a cease trading order, the purchaser can obtain a certificate upon completion of an affidavit verifying the facts.

A second problem area relates typically to the company against whose securities a cease trading order has been made, and continued, by reason of the company's inability to provide up-to-date information to its shareholders. Shareholders may seek to establish a capital loss for the purposes of the Income Tax Act but find that the cease-trading order prevents a sale, even for a nominal consideration. This point was considered by the Commission in O.S.C. Policy No. 3-31 ((1975) O.S.C.B. 48) which noted in part that 'Where the disposition is by way of gift, the Commission is of the view that it is not a 'trade' within the meaning of section 1(1)24 of The Securities Act even though it may be viewed as a 'disposition' for the purposes of The Income Tax Act'. Where a shareholder has disposed of shares by way of gift a certificate in the name of the donee can similarly be obtained upon completion of an affidavit.

Affidavit forms appropriate to both cases - the antecedent trade and the gift - are available at all trust companies through their stock transfer departments.

In other cases, where the Commission is satisfied that a proposed disposition is at arms length and made, so far as the applicant shareholder is concerned, solely for the purpose of establishing a tax loss, the Commission is prepared to vary outstanding cease trading orders to permit such transactions where a sale to an informed purchaser is contemplated.

2. That paragraph 1 hereof shall be conditional upon the Trustee sending to Ontario claimants the same material soliciting approval of the Plan of Reorganization as is sent those claimants resident in the United States of America;
3. That registration shall not be required in respect of the solicitation of approval of the Plan of Reorganization or of any trades resulting from such approval;
